

Peer Review/Value Engineering Medical Centers, Various Locations

TM Osborn Associates Inc. provides ongoing consulting services as a member of multi-disciplinary teams responsible for the review of major medical and related facility new addition and renovation projects. These reviews are provided for the Office of Construction and Facility Management, Department of Veterans Affairs. The periodic reviews begin at the conceptual or schematic stage and continue through to 100% construction documents. Many of the projects undergo a separate, intensive week long Value Engineering workshop which concludes in documented recommendations for quality enhancements and potential cost savings.

Projects reviewed include:

- Polytrauma and Blind Rehab. Center, Palo Alto, CA
- Temporary Blind Rehab. & Parking Structure, Palo Alto, CA
- Research & Office Building, Pittsburgh, PA
- Lease Based Clinic, Summerfield, FL
- Jacksonville National Cemetery, Jacksonville, FL
- New North Las Vegas Medical Center, Las Vegas, NV
- Mental Health Addition, Pittsburgh, PA
