

# Ambulatory Surgery Centers **Consultations/Feasibility Studies**

---

TM Osborn Associates, Inc. provides consultation to Ambulatory Surgery Centers Owners and Management to assist in project feasibility, project review, value engineering and compliance with codes and regulations. Feasibilities include assistance in site selection, space program and conceptual plan development and construction budgeting. Often Owners request a review of current conditions with recommendations for functional enhancements to improve staff efficiency and operational effectiveness or to expand capacity to meet new service demand.

Consultations have included:

- Merrillville, IN
- Buffalo, NY
- Eden, NC
- Danville, VA
- Hazelton, PA
- Dublin, Ireland
- and Others.
